MSAB wins significant business in North America

MSAB (Micro Systemation AB, publ), a world-leading company in digital forensics, receives an order of 10 MSEK from a federal authority in North America.

"It is gratifying that we receive a substantial order already two weeks into the fourth quarter and, on the important North American market," says Peter Heuman, newly appointed CEO of MSAB.

The sale relates to renewal and upgrading MSAB's advanced extraction software, XRY Pro, to a value of 10 MSEK. The order comes from an existing customer in North America who wants to achieve improved access to more versions of mobile phones for the agency's users, the agreement is valid for one year. The order also includes hardware, consisting of peripheral equipment that enables extraction of several phones simultaneously and thus streamlines the handling of the authority's investigations. The revenue is expected to be recognised in the company's fourth quarterly report.

About MSAB:

MSAB is a world leader in forensic technology for extracting and analyzing data in seized mobile devices. The company develops high-quality and easy-to-use software for law enforcement organizations, such as police, defense, and customs. The products, which have become a de facto standard for securing evidence in criminal investigations, can be supplemented with reporting tools and a large range of training with certifications within a holistic method for forensic science. The company serves customers in more than 100 countries worldwide, through its own sales offices and through distributors. MSAB is listed on Nasdaq Stockholm under the ticker name: MSAB B.
