

MSAB Receives Order from United States Government Agency

MSAB (Micro Systemation AB, publ), a global leader in digital forensics, has secured a significant renewals contract worth SEK 19 million from a US Government Agency.

The contract includes license renewals for both XRY and XAMN, digital forensics software for extraction and analysis.

"We are honored by this continued trust and confidence in our technology from our key customers and are fully committed to supporting them in their mission", says Mike Dickinson, Head of Sales at MSAB.

The agency procures MSAB's products to consistently and rapidly achieve access to data on mobile devices. Software support is also included in the agreement, which runs for one year. The revenue is expected to be reported in the company's fourth quarter.

About MSAB:

MSAB is a world leader in forensic technology for extracting and analyzing data in seized mobile devices. The company develops high-quality and easy-to-use software for law enforcement organizations, such as police, defense, and customs. The products, which have become a de facto standard for securing evidence in criminal investigations, can be supplemented with reporting tools and a large range of training with certifications within a holistic method for forensic science. The company serves customers in more than 100 countries worldwide, through its own sales offices and through distributors. MSAB is listed on Nasdaq Stockholm under the ticker name: MSAB B. www.msab.com
