MSAB Receives Order for SEK 19.3 million from Government Agency in Asia Pacific

MSAB (Micro Systemation AB, publ), a global leader in mobile forensics, has received new orders from a government agency in the Asia Pacific region with a total value of SEK 19.3 million.

The order primarily includes XRY Pro, the company's flagship solution for mobile device data access and extraction. The agreement has an initial term of three years.

Due to confidentiality requirements, the identity of the customer cannot be disclosed.

“Our continued investment in research and development for mobile phone access and extraction is delivering strong returns through growing global sales of XRY Pro and this order in Asia Pacific is yet another example of broad customer adoption that has become our key growth driver in 2025” says Peter Gille, CEO of MSAB.

Revenue from this agreement is expected to be recognized in the fourth quarter.

About MSAB:

MSAB is a world leader in forensic technology for extracting and analyzing data in mobile devices. The company develops high-quality and easy-to-use software for law enforcement organizations, such as police, defense, and customs. The products, which have become a de facto standard for securing evidence in criminal investigations, can be supplemented with reporting tools and a large range of training with certifications within a holistic method for forensic science. The company serves customers in more than 100 countries worldwide, through its own sales offices and through distributors. MSAB is listed on Nasdaq Stockholm under the ticker name: MSAB B. www.msab.com
