MSAB Secures Contract Worth SEK 12,7 Million with Australian Law Enforcement Agency

MSAB (Micro Systemation AB, publ), a global leader in digital forensics technology, has signed a significant agreement valued at SEK 12.7 million with a large law enforcement agency in Australia.

The agreement covers renewals and new software licenses for XRY Pro, MSAB's flagship extraction tool. It also includes software support and services and will run for three years.

"Australia is a strategically important market for MSAB in the APAC region, where we have focused on significantly increasing our market share," says Peter Gille, CEO of MSAB. "We are pleased that this major Australian agency has reaffirmed its trust in our technology leadership and long-term partnership."

The agency uses MSAB's solutions to access data from mobile devices across its jurisdiction, both in the field and in laboratory environments, strengthening its operational capabilities.

"From the outset, we prioritized open and transparent communication, listening closely, aligning on requirements, and staying responsive throughout the process," said Graeme Pyper, VP Sales, APAC, at MSAB. "That clarity helped build trust and ensured the agency felt confident in choosing MSAB as a long-term partner."

Revenue from the agreement is expected to be recognized in the company's second quarter.

About MSAB:

MSAB is a world leader in forensic technology for extracting and analysing data in seized mobile devices. The company develops high-quality and easy-to-use software for law enforcement organizations, such as police, defence, and customs. The products, which have become a de facto standard for securing evidence in criminal investigations, can be supplemented with reporting tools and a large range of training with certifications within a holistic method for forensic science. The company serves customers in more than 100 countries worldwide, through its own sales offices and through distributors. MSAB is listed on Nasdaq Stockholm under the ticker name: MSAB B. www.msab.com
